COSO

Introduction

Crusoe

CRUSOE is a free online help tool for research data warehouses. It helps to prepare a CoreTrustSeal certification or simply use the CoreTrustSeal criteria to learn more about your warehouses and improve your practices.

This tool was funded and developed under the aegis of the Open Science Committee (CoSO) of the French Ministry in charge of research. It has been developed and will be maintained by the Data Service of the Midi-Pyrénées observatory.

It can be used at <https://crusoe.ouvrirlascience.fr/en> or be downloaded from the links <https://github.com/sedoo/certifymyrepo-back> and <https://github.com/sedoo/certifymyrepo> to be installed with the hosting of your choice. It is under GPL license.
